

Introduction

The Universal Council is here to serve each and every soul in the universe.

As the Universal Council journeys along this path of service, the council guides to elevate all souls for them to bring peace on this planet and, in their process of travel and existence, in the universe as a whole.

The Universal Council guarantees that souls, who and which leave or live on this planet, will obey the rules of peaceful co-existence on earth and beyond and the only course from this point on for all souls is to be in peace and in harmony at all times.

This council is and will be the true reflection of the whole of humanity on Earth and in Space.

The expression of this essence is the unity of all beings in the path of serving all unconditionally.

This charter provides a bridge amongst all men and all inhabitants of this planet and between Humanity and the Universal Community.

Through the beauty of the soul of diversity of the languages spoken on planet earth, all souls are as equal and all are as Creators as they are created in the image of the Creator.

Universal Council Mandate

The soul of the Universal Council member should shine like the light of the creator, to be the source of light for other souls and radiate the light of the beauty of the creator and have and try to reach all attributes of The Soul of The Creator.

In time creatures of the universe shall see the light of the soul of the man and not the physicality of the man.

Members of the Universal Council are chosen by strength of their souls alone in serving the humanity and the universal community and never by others.

The members of the council can't announce themselves as a member of the council unless it is announced and registered under the council's registrar panel.

No members of the council can ever speak as themselves as being a member of the council to influence their opinion or words, as then if done so, at this point immediately they lose their seat in the council and a new member can stand for the vacant position.

The members of the council shall not be elected but chosen by the soul of the man for it to be able to serve the humanity and as the soul of council members self-select themselves.

The dedication of the soul of the council comes from service through giving from the soul and not by talk or physical actions.

No Member of the council has the right, or can or ever should be, elected by giving their time, money and effort on promoting oneself, as the others see the true soul of the man and his intentions.

Those who try to show that they are better servants of humanity, they do not stand a chance to take a seat in the council.

A Universal Council member cannot nominate a new council member, otherwise they lose their seat in the council.

The Universal Council is here to serve those who live on earth and in space with true intentions and not spoken words.

Once in space and, in due course, men will observe and feel other souls and not its physicality and voice.

Man in space will understand his true value and this council becomes the true representation of the interest of the whole of the souls of the earth both on earth and in space.

There shall be no head of the council elected as the souls through their own position and serving the humanity will find balance to create a balanced council.

There shall be no voting as one sees the truth and feels the real intention of others.

In the council, once one promotes a certain motion for it to establish as effective course for elevation of the souls or collective soul of the race of the planet, or do something for the good of the man, then the other souls will understand and support the motion of the presented case through their intention and support of the soul and not by voting.

The Universal Council is to be the bridge between humanity and the Universal Community.

The Universal Council will be the contact point for all humans and other beings traveling in space or beings visiting planet earth.

The Universal Council is responsible for interaction with the Universal Community (conditions/interface/visitors/ for those already here)

The Universal Council will be the interface between, on how to share on Earth new technologies offered by the Universal Community through open source and free for all.
